

Protect your HVAC investment with a Daikin Maintenance Plan

A suite of options, customizable to you and your building

Whether your new chiller or entire HVAC system is pending installation or you are looking to reap the most energy savings from your existing HVAC system, we have a Daikin maintenance agreement for you. All plans are serviced by factory-trained technicians, working with your on-site staff to optimize and enhance the value and life of your building's most expensive asset.

First-year Maintenance

- Perfect for newly installed chillers/systems
- Protects your warranty and investment

Inspection Plan

- Budget-friendly option for all HVAC equipment
- Provides regular maintenance upkeep after the warranty has expired

Labor Maintenance

- Face fewer unexpected repair payments
- Highly trained Daikin technicians maximize energy efficiency

Comprehensive Maintenance

- Ensures no additional, unexpected maintenance or repair expenses for covered services
- Priority service from the most knowledge team

People and ideas you can trust

Comprehensive Maintenance Plan

Rest assured your building is at peak performance

Let us handle the complexity of your system so that together we can more effectively and efficiently maintain your building's peak performance. Experts in our field, our factory-trained technicians bring their expertise to your building, resulting in faster resolution to any of your HVAC concerns. Our team helps you control the cost of your HVAC system while saving you time and money to manage your business.

Maximizing energy efficiency, for you and your building

Our technicians will save you time and money, ensuring your building is always running at its peak efficiency. From annual condenser cleaning (as selected) to software upgrades, your system will reach its maximum energy efficiency.

Eliminate unexpected expenditures

Surprises are never welcome, particularly to the bottom line. When you sign a comprehensive maintenance plan with Daikin Building Solutions, you can feel confident that our team will help you achieve the best value from your equipment. Our agreement eliminates uncertainty by covering both preventative and problem-solving maintenance for covered equipment/services.

OEM expertise on your schedule, specifically for you

No two customers are alike. We tailor each agreement to meet your specific needs and goals in maintaining the highest performing HVAC system for your building. Feel confident that our technicians are available 24 hours/day, 7 days/week to minimize downtime and keep your building up and running.

Is this the plan for you?

- You seek certainty, knowing your HVAC system will be taken care of with no additional, unexpected expense.
- You prioritize your building's efficiency and performance
- You want priority service from the most knowledgeable team.

Full access to the most complete and seamless service for your most expensive building asset:

All labor, parts, materials and refrigerants included for covered services you select

24-hour priority service

Regularly scheduled maintenance and inspection services

One plan to eliminate budget surprises

Gain unprecedented visibility into your HVAC equipment. With the addition of Daikin's award-winning Intelligent Equipment®, Daikin System Service Professionals are able to help you proactively maintain your equipment and boost the efficiency of your HVAC system.
